

GURMEET SINGH

Full Stack Developer

official.iamgurmeet@gmail.com • +91-9780966825 • Chandigarh, India • gurmeet.dev

Professional Summary

Full Stack Developer with 4+ years of experience designing and delivering scalable web applications across Health-care, FinTech, Social Networking, and Logistics domains. Expertise in React.js, Next.js, Node.js, TypeScript, Express.js, MongoDB, PostgreSQL, and Microservices Architecture. Experienced in developing REST APIs, GraphQL services, payment systems, real-time applications, monorepo architectures, and cloud deployments. knowledge of AWS EC2, Docker, Redis, Socket.IO, System Design, Authentication, Performance Optimization, and scalable back-end development.

Technical Skills

Frontend	React.js, Next.js, TypeScript, JavaScript, Redux, Zustand, Tailwind CSS, TanStack Query
Backend	Node.js, Express.js, REST APIs, GraphQL, Socket.IO, Microservices, JWT Authentication
Database	MongoDB, Mongoose, PostgreSQL, Prisma
Cloud & DevOps	AWS EC2, Docker, Redis, Linux, Git, GitHub, CI/CD
Architecture & Tools	Turborepo, Monorepo Architecture, System Design, Jest

Work Experience

Qualhon Informatics

Apr 2024 – Present

Full Stack Developer

- Developed and maintained scalable healthcare and social platform applications using React.js, Next.js, Node.js, TypeScript, and PostgreSQL.
- Built and optimized REST APIs and backend services supporting multiple business-critical modules.
- Worked on Microservices architecture using Docker and Redis to improve scalability, maintainability, and system performance.
- Deployed and managed applications on AWS EC2 environments.
- Improved application performance through query optimization, caching strategies, and efficient state management.
- Collaborated with cross-functional teams to deliver production-ready features in Agile development cycles.

Codedrill Infotech

May 2022 – Mar 2024

Junior MERN Stack Developer

- Developed full-stack web applications including Attendance Management and Restaurant Management platforms.
- Designed and implemented backend services using Node.js, Express.js, MongoDB, and GraphQL.
- Built reusable frontend components and responsive user interfaces using React.js and Next.js.
- Participated in requirement gathering, development, testing, deployment, and maintenance activities.
- Implemented secure authentication and authorization using JWT-based authentication.

Projects

Tiniless (Healthcare Platform)

Lead Full Stack Developer

- Led development of 5 frontend panels within a Turborepo monorepo architecture for a healthcare platform.
- Managed feature delivery and technical implementation for a cross-functional team of 4 developers.
- Integrated hardware devices with Kotlin mobile applications and web platforms to enable seamless healthcare data synchronization.
- Travelled to China to collaborate directly with hardware manufacturers and engineering teams for device integration, requirement gathering, testing, and production readiness.
- Developed reusable shared components and utilities, improving maintainability and reducing development effort across applications.

Nensapp (Social Networking Platform)

Full Stack Developer

- Designed and developed 15+ wallet, payment, and transaction APIs using Node.js, Express.js, and TypeScript.
- Built secure payment workflows and transaction management services from scratch.
- Implemented business-critical backend modules supporting multiple platform features and financial operations.
- Optimized database queries and API performance to improve response times and scalability.

Trucking Management System

Full Stack Developer

- Built multiple frontend panels using React.js and Next.js within a shared Turborepo monorepo architecture.
- Implemented reusable modules and shared utilities reducing code duplication across projects.
- Developed scalable APIs and business workflows for logistics and transportation management.
- Collaborated closely with stakeholders to deliver production-ready solutions.

Education

Bachelor of Computer Applications (BCA)

2018 – 2021

Punjab University
